1111-M32	Moccasin Awl:M32	10	\$12.30
1111-M34	Moccasin Awl:M34	9	\$12.63

## FUR KNIVES AND REPLACEMENT BLADES

The fur knife was designed especially for use by furriers in working with fine furs, such as mink, coyote, sable, and fox. The blade is incredibly sharp and cuts through fur like it is going through butter. The knife can also be used on lightweight leathers, hides, and for other craft projects.

We ship these around the world and are one of the only firms left stocking this wonderful knife.

We have a video on Youtube showing how to use the fur knife. When using the knife, cut from the hide side without the hair pressed against anything. You will slice just the skin with minimal loose hair flying around.

Handle with care.

The fur knife comes with two blades. Each blade is precut into two triangular blades so you will get a total of 4 triangular blades.

The fur knife does not come with a blade inserted. You can open the cover to insert a triangular blade.

We recommend ordering extra blades when buying knives to save on shipping costs and to ensure blades are on hand. The blades can break when cutting heavy leather or if twisted while in use. They are 0.2 mm thick.

Made in Pakistan

The Aeterna blades from Sweden are already cut into two triangular blades for easy use in the fur knife. These blades are much safer than the German blades that are scored and must be snapped into two pieces.

The blade is designed to fit into our fur knife perfectly.

Made in Sweden

Code	Description	1-11	12+
1139-10	Fur Knife and 2 Blades (4 triangles)	\$36.10	\$32.95
1139-11	Fur Knife Blade Precut into 2 Triangles	10-pack \$21.60	200-pack \$218.00
