

# 5090-1 Ranch Fur

## FOX SKINS

Silver Foxes measure about 34" from the tip of the nose to the base of the tail. (*Vulpes vulpes*).

Product of Canada or the USA

In general, the foxes are cased (i.e., not split open). They usually measure about 2 to 3 feet in body length and have a tail that is about one foot long for a total of 3 to 4 feet. Please note that the measurements shown for each type of fox are based on the average size of some foxes that we had in the past and, as with any natural product, there will be variation in size within each species. Ranch-raised foxes can be significantly bigger than wild ones.

Blue Foxes measure about 38" from the tip of the nose to the base of the tail. (*Vulpes lagopus*).

Product of the USA, Canada, or Finland

The trading post grade shadow fox skins are nice white foxes that measure about 40" from the tip of the nose to the base of the tail. (*Vulpes lagopus*)

Product of Finland

180-07-FQAA-AS Close-up

The fashion quality shadow fox skins are sorted by size. They are incredibly plush and the hair is soft and thick throughout. These high quality skins can be used for clothing, fur trim, collars, hats, etc.

The XL skins are about 41" to 44" from the tip of the nose to the base of the tail and 12" wide across the middle.

The L skins are about 37" to 41" from the tip of the nose to the base of the tail and 10" wide across the middle. (*Vulpes lagopus*).

Product of China

## DYED FOX SKINS

These are fox skins that have been dyed. These skins are a very high quality which can be used for clothing, fur trim, collars, hats, etc. They are incredibly luxurious and plush. The hair is soft and thick throughout. You will not get the exact skin in the photos but one that is very similar. This is a custom-order item only that will take 2 to 4 weeks to deliver. (*Vulpes lagopus*, ranch).

## MINK SKINS

28-F-WH

28-F-DB

28-F-BI

28-M-WH-AS

The **Female** skins are approximately 31" from the tip of the nose to the tip of the tail in overall length. Useable length is 21" from the ears to the base of the tail and 2½" wide at the top and about 4" wide at the bottom. The tail is about 7" long. The skins come cased (like a sausage). When cut open, they are about twice as wide.

The **Male** skins are generally larger, have longer hair, denser under fur, and thicker skins than female skins. They are good quality with weak spots, and may come with or without tail. They are not craft quality or fashion quality but somewhere in between. The skins are approximately 32" to 33" from the tip of the nose to the base of the tail with a useable length of 24" long and 3" wide at the top and 6" wide at the bottom. The skins come cased and have tails that are about 12" long.

The **Mink with Feet** are 16" to 18" long from the nose to the base of tail. They are approximately 3" to 5" wide and are cased.

The **Craft Mink** range in size from 16" to 24" long. Some are cased and some are open.

All mink skins are natural colors. (*Neovison vison, ranch*).

Product of Canada, Denmark, Finland, or USA

## MINK PLATES

The plates are made in China using ranch-raised Chinese mink. They are rectangles measuring approximately 2' by 4' made using scrap from mink used to make coats.

28-PLBPD MU

28-PLHCDBK

28-PLHSNBR

There are about twenty different ways of making the plates. They use head pieces, flank pieces, belly pieces, front-paw pieces, rear-paw pieces, and scrap plates. We have been stocking head plates in two different styles (squared and curved/scalloped). We generally have black and dark brown in head plates. We have a few bright, multi-color scrap plates as well. (*Neovison vison, ranch*).

Made in China using Chinese Mink Skins

## FINN RACCOON SKINS

Finn Raccoon are also known as Tanuki, Russian Raccoon, Chinese Raccoon, Temple Dog, and Raccoon Dog. This animal has coarse fur, and is ideal for use in making ruffs for parkas. An average skin measures 26" long from the nose to the base of the 9½" tail and 12" wide across the middle. Prices are determined by length and quality of the fur. (*Nyctereutes procyonoides*, ranch raised).

Product of China

## CHINCHILLA SKINS

These are trading post quality chinchilla skins. They are good quality skins with no tails. The skins average around 14" to 15" long and 2½" to 3" wide. As these are natural products, there will be some variation in the color and size of the skins. Chinchillas have the densest fur of all land mammals. Chinchilla fur is very soft and velvet-like and are in high demand for clothing and accessories. (*Chinchilla lanigera*, ranch).
