

# 5200-1 Animal Teeth

## BEAVER TEETH

With the exception of the broken/cracked teeth that are sold separately below, these are #1 beaver teeth that have been cleaned. Please note that all sizes may not always be available. (*Castor canadensis*, wild).

Product of Canada or the USA

Code	Description	Price
174-300-S	Beaver Tooth:Small:<2"	\$2.67
174-300-M	Beaver Tooth:Medium:2-3"	\$3.83
174-300-L	Beaver Tooth:Large:3"+	\$4.56
174-300-B	Beaver Tooth:Broken/Cracked	\$2.67

## BLACK BEAR TEETH

These are real black bear teeth from U.S. bears. The canines are about 1½" to 2½" long and about ½" to ¾" wide in the middle. The molars are about ½ to ¾" long and about ¼" wide. The teeth have been cleaned and are in good condition. If not kept covered in mineral oil or Vaseline™ they will crack over time. Use household hydrogen peroxide from the drug store to whiten them by soaking overnight. (*Ursus americanus*, wild).

Sales are restricted to legal states. Please see our website or call to see if we can ship these to your state.

Product of the USA

Code	Description	Price
174-350-AS	*Real Black Bear Canine	\$53.08
174-360	*Real Black Bear Molar	\$12.30

\* Sales restricted in some jurisdictions. CITES II; No exports.

## BUFFALO MOLARS

The North American bison molars come from ranch-raised buffalo. They have been cleaned, but not drilled. Ideal for making pendants and other craft projects, they are approximately 2¼" to 3" long. (*Bison bison*, ranch).
